vosaic™

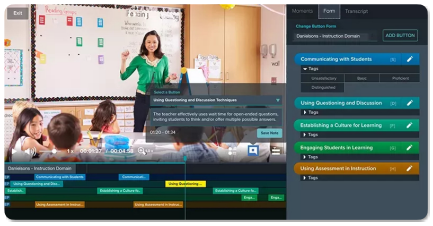

Support **Teacher** and **Student Growth** with **Video Feedback** and **Analysis**

Video Analysis Software for Teaching and Learning

Use Vosaic's flexible video platform to record, observe, identify, and aggregate indicators that reveal insights and patterns needed for improvement and research. Vosaic supports professional development of teacher and active learning of student. Record videos using any camera or mobile device; Securely share videos with individuals or groups; Use custom rubrics to mark-up & code videos for feedback, coaching, observation, or analysis.

Vosaic enhances your learning program with Video Analysis

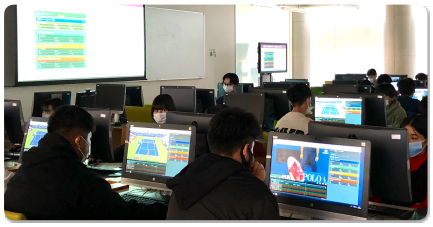

Support Teacher Development

Vosaic's performance analysis and video feedback provides teachers effective goal-setting and reflection on their practice.
Vosaic supports teachers with evidence-based growth opportunities.

Support Active Learning and Project-based Learning

Improving presentation skills are essential for active learning and project-based learning.
Student can find where to improve by themselves with immediate review.

STEAM & ICT Education

The ability to freely use video and ICT equipments to express one's ideas is essential in today's world.
Video analysis of sports and artistic activities is closely related to STEAM education.

vosaic™

Improve with Video Feedback & Analysis

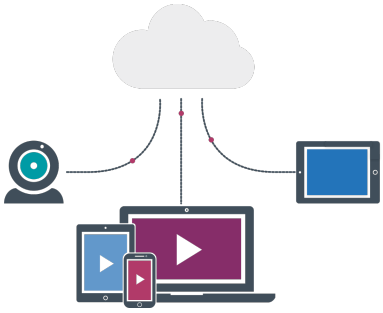

Use Video and ICT Equipment You Already Have

With Vosaic there's **no need to buy new equipment or download and install new software**.
Simply register using a modern browser, such as Chrome, and start recording and uploading videos. If you have a mobile device, download our app to make video recording and markup more efficient and effective.

Flexible Video Feedback Forms (Rubrics)

What makes Vosaic attractive to educators, researchers, and coaches at organizations worldwide is its flexibility. You can easily **customize video observation forms to fit your specific video feedback, self reflection, or research needs**.

Collaborative By Default

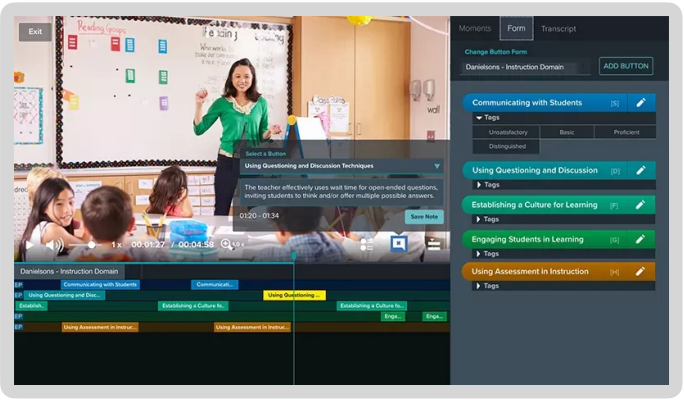

If you've ever tried improving upon or teaching a new skill, you know how valuable it is to get (or provide) objective feedback. **Vosaic makes it easy to give feedback to your students** and invite others to watch and provide comments on areas that need improvement.

Don't Miss Any Facts for Teacher and Student Growth

When learning, practicing, or reflecting on a new skill, we trust our brains to recall events accurately and objectively. Yet research shows that when recalling events, we experience a tunnel vision focusing on big moments and discarding details that seem incidental.

Those details and specific moments are the evidence you need to help you improve.

Vosaic provides you with easy to use tools for recording, annotating, and marking up videos so you can more effectively address key areas for professional growth.

Pricing That Scales With Your Needs

VOSAICBP26	**Vosaic Basic Pack**	**User Account** - Paid User: 5 (can upload video and create form) - Free User: Unlimited (can view and code video) **Video Storage**: 500 hours **Online Support**
